Subject: **Support Senate Bill 112: Dylan Steigers' Protection of Youth Athletes Act**

Letter: Greetings,

Support Senate Bill 112: Dylan Steigers' Protection of Youth Athletes Act

Comments

Name	Location	Date	Comment
Kristen Morgan	Missoula, MT	2013-03-06	Too many young athletes are experiencing long term symptoms from sports related concussions. The bill includes the critical element of EDUCATION!
Charlie Brown	Fairfield, MT	2013-03-07	Two of my kids have sustained concussions.
Jennie Watson	Missoula, MT	2013-03-07	As the parent of a child with a brain injury, I've learned how devastating even a slight brain injury can be. If it can be prevented, let's do it!!
Glem Brist	Kila, MT	2013-03-08	Because of my brain injury, I know how it changes ones life...
Jessie McGee	Missoula, MT	2013-03-08	From the experience of being an athlete, who never took myself out of the competition. To someone who sustained a TBI, (not related to athletics) and now not being able to play the sports I once loved. To trying to coach after my TBI, and realizing just how devastating the long term effects of TBI and Concussions can be. I don't wish my fate on any young athletes. I know how the symptoms can often be ignored because of the competitive spirit of the athlete. Education is key, and even though it puts coaches in a hard situation, it makes everyone recognize the importance of prevention, and truly understand all the ramifications of what a TBI can entail.
Leif Griffin	Missoula, MT	2013-03-08	I am a survivor of a TBI and consider myself lucky unlike Dylan Steigers. We need to do more as a society to prevent all TBI. SB112 is a step in the right direction.
Jim Mickelson	Missoula, MT	2013-03-08	Because I see the results of brain injury everyday and know that the only cure is prevention and if this bill even saves one life it is worth every penny and all of the effort to make it happen. Thank you Montanans!
Nan Barber	Lolo, MT	2013-03-08	We feel that kids and parents don't know when to act on symptoms that manifest after an injury ...even 3, 4, or 7 days later. Kids are conditioned to dust themselves off and get back in the game...Be Tough!! I had a brain injury which wasn't diagnosed by a doctor. Yrs. later, my psychologist AND social worker said I had many symptoms of a closed head injury.
Tim Countryman	Bozeman, MT	2013-03-08	I am a TBI survivor. There isn't much that is more important to me than a proactive approach to TBI prevention.
Kathy Countryman	Big Timber, MT	2013-03-08	Our son suffered a TBA in a construction accident, so we are in 100% support of all such preventative measures in this area.
Marilyn Patrick	Butte, MT	2013-03-08	I know firsthand the devastating effects of what brain injuries do to a person and the family.
Justin Countryman	Big Timber, MT	2013-03-08	My brother suffers from a traumatic brain injury, and I think that it is important that as many preventions as possible are used to prevent others and their families from having to deal with brain injuries. It is a small price to pay in order to prevent a potential life-changing circumstance from occurring.
Susan Poyer	Billings, MT	2013-03-08	Montana is #2 in the nation for traumatic brain injury. We need to do more to prevent it.
Tess Brist	Kila, MT	2013-03-08	I myself am an athlete and a coach and feel it is important to have a healthy educated athletes.
Randy Zarn	Lewistown, MT	2013-03-09	My now 17 year old daughter was a passenger in a serious MVA a couple months after turning 16 and suffered a serious TBI. We are advocates for the prevention of brain injures especially in our youth

Name	Location	Date	Comment
Michael Crews	Lolo, MT	2013-03-09	Because as a Speech Language Pathologist I work with people all the time who have TBI's and see the devastation to their lives!
Bryan Knaff	Helena, MT	2013-03-09	I have a brain injury and know difficult it is to live with.
Julia Hammond	Missoula, MT	2013-03-09	Brain injury is devastating to our society. No one should have to deal with the loss of functioning and emotional pain associated with brain injury, especially not our children. This bill is absolutely critical to protect the youth in our state.
Lindsay Crosby	Missoula, MT	2013-03-09	As a youth soccer coach I appreciate legislation protecting athletes from TBI especially when it provides them with assessment care that coaches might not possess.
Cathy Fisher	Bozeman, MT	2013-03-09	Concussions can be life altering but skill often not taken seriously. Many young people I have treated, as a Speech-Language Pathologist, did not realize the possible consequences and the cumulative effects of concussions. They have told me that if they had ben informed, they would have chosen not to put themselves in harms way.
Nancy Astrup	Bozeman, MT	2013-03-09	As a physical therapist I often see the negtive effects of concussions on both the cognitive and physical side of the patient. Anything we can do to inform and support efforts to reduce this common problem is an effort in the right direction.
Nanette Crusey	Anchorage, AK	2013-03-09	My adult son has TBI. I will be moving to Missoula sometime this Fall and would like to get involved wirhTBI prevention and Adult support issues.
Brandon Rennie	Missoula, MT	2013-03-10	It amazes me how much more we could be doing to prevent and reduce the potentially devastating impact of TBI in our youth.
Tana Ostrowski	Missoula, MT	2013-03-11	Returning a youth athlete to play if/when their brain is recovering from a concussion can result in life long cognitive deficits. This legislation has the potential to protect our youth from potential life long disability
Brian Garrity	Helena, MT	2013-03-11	Our youth deserve accurate information about potential dangers to their health, some of which that can affect the rest of their lives. They deserve to be able to take advantage opportunities that will be available to them throughout their lives, without the barrier of a disability. Please protect our youth and their futures by voting to pass SB 112.
Amy Hubbard	Bozeman, MT	2013-03-12	Too many times, concussions are not treated or recognized as a brain injury and unfortunately, this is not the case. While I am not an athlete, I am a person who has a) suffered from concussions and b) am the mother of a son who has TBI. Concussions are Brain Injury and there needs to be some legislation protecting these young athletes.
Jim Dochnahl	Butte, MT	2013-03-13	We need to protect our kids from stuff they do as a kid that could haunt them forever.
Rena Johnson	Plains, MT	2013-03-14	My first concussion was when I was 13. As I have a brain injury, and find it very difficult to live with, anything that can protect kids is great.
Faye Salomone	Plains, MT	2013-03-14	I coach youth soccer and am aware of the re-current concussion young players suffer due to "heading" the ball. These kids need to be removed from play until they recover, and I believe heading the ball should not be allowed in soccer leagues under the age of 16.
Cindy Artist	Fort Shaw, MT	2013-03-14	One incident can change a person's life forever and most students feel invincible. They have been taught to be tough and work through their pain. This is one injury they cannot diagnose and should not try to. This bill will help not only the youth, but parents, coaches, teachers and community members.
Dianne Bremer	Fairfield, MT	2013-03-14	As a parent, coach and teacher, I understand the dangers of concussions and support Bill 112.

Name	Location	Date	Comment
Lisa Sheble	Cut Bank, MT	2013-03-14	I have a nephew who suffered 3 concussions before they made him quit playing football. I am worried about his future health and how those concussions will affect him.
Carol Flammond	Cut bank, MT	2013-03-14	Having suffered a concussion my self . This regulation is very important for a safe recovery. I understand the dangers and support this bill!!!
Laurel Ann Larson	Cut Bank, MT	2013-03-14	Brain research is just becoming information for all. This soon this information is coming out. Further information will be more precise.
Tracy Klapwyk	Butte, MT	2013-03-14	Because of the TBI's injuries that happen. Which there are can be long term issues that are related to those injuries!!
David Gray	Missoula, MT	2013-03-14	TBI Survivor
Tom Steigers	Missoula, MT	2013-03-14	As Dylan's father, I don't want any other families to suffer the tragedy that we have.
Victoria Larson	Missoula, MT	2013-03-14	I loved Dylan. I was like a second mother to him. This bill is vitally important.
Mandi Kennerly	Cut Bank, MT	2013-03-14	I have a son who is an athlete and I come from a strong rodeo family with that said it's an important issue to everyone.
Connie Bowman	Missoula, MT	2013-03-14	We all lose when our young athletes, friends and children die or are injured because we didn't care for them as we should. Let's not loose anyone else if we can help it.
Joy H, Miles	Missoula, MT	2013-03-14	My daughter had a concussion in High School soft ball and we had know idea it was so serious. This is not just about football!!!!!!
Jose Ortiz	Colstrip, MT	2013-03-14	As a healthcare provider - physician in rural Montana, I see first hand how head injuries can cause a short and long term consequences for our youth. I beleive it is responsibility of the adults to take the appropriate steps necessary to decrease or limit those kind of injuries. Thanks
Jared Tylinski	Great Falls, MT	2013-03-14	As a future father of a son i would expect the best for him if he chooses to play sports.
Donald Mogstad	Missoula, MT	2013-03-14	To prevent concussions in young athletes and to help with concussion awareness, so other's don't suffer Dylan's fate.
Laurie Bryn	Missoula, MT	2013-03-14	I knew Dylan and his family well and I know that this might save lives. Laurie Bryn
Kent McGowan	missoula, MT	2013-03-14	We are fans of youth hockey and regularly observe first hand the violence of youth sports. A licensed health care providfer needs to clear kids to return to play because the kids will downplay how injured they really are because of their desire to compete.
Brandy Lumpkin	Missoula, MT	2013-03-14	I have a son who one day will play football, and I want him to be protected as much as humanly possible.
Carolyn Tschida	Missoula, MT	2013-03-15	My son had sports concussions in HS as did many of his friends. There was no consistent practice surrounding this injury and the players won't heed the signs. I had to get an independent doctor involved and after testing he suggested my son sit out a season. The schools need to all be on the same page with this. Thank you.
Lynne Gilfillan	Missoula, MT	2013-03-15	Dylan is my nephew, he was an exceptional athlete and gave his time and talents to the Missoula youth whenever possible, he would never want what happened to him to happen to another athlete. This bill could possibly save a life, he would be so honored to have his name attached to such an important cause.

Name	Location	Date	Comment
Chelsea Hyde	Dillon, MT	2013-03-15	I grew up with Dylan..I graduated in 2006 with him from Sentinel..He was a great, fun, young man..I miss him I support Bill 112 to help save other young people and help let people know more about concussions
james wright	Butte, MT	2013-03-15	Want to protect our youth
Chelsea Gilfillan	Whitefish, MT	2013-03-15	Dylan was my cousin!! I hope his death can make a difference and that people can learn from this tragedy that we have all been through.
Ian Elliot	Billings, MT	2013-03-15	As a trained rehabilitation counselor specializing in TBI, Facilitator of the Billings Brain Injury Support Group, past President and current Board Member of the Brain Injury Alliance of Montana, Vice Chair of the Governor's TBI Advisory Council, Former Montana TBI Project Coordinator and a TBI Thriver, I strongly encourage passage of Senate Bill 112 as an initial and significant step towards reducing Montana's incredibly high per capita incidence of Traumatic Brain Injury. We currently rank 3rd in the nation for per capita incidence of TBI and significant steps to address this "silent epidemic" are long past due. The data is there for all to see, the cost factor minimal, and it's the right thing to do!
Teresa Warford	Polson, MT	2013-03-15	Because I knew Dylan personally.
Kolten Kuntz	Helena, MT	2013-03-15	Public health and safety.
Megan King	Missoula, MT	2013-03-15	I have young athletes.
Rian Bartsch	Missoula, MT	2013-03-15	Friends with Dylan's cousin Shelby and wanted to support this act.
Josie Potter	Lolo, MT	2013-03-15	Keeping our youth healthy is top priority. As the survivor of three serious concussions - I know how important medical attention and adequate time for complete recovery before resuming activity is.
andrew dauenhauer	missoula, MT	2013-03-15	i dont want Dylans death to be in vein
Dianne Van Auken	Fairfield, MT	2013-03-15	Our students' health is more important than obtaining the game win.
Barbara Marxer	Missoula, MT	2013-03-15	Because I want to protect the lives of our young athletes!
Diane Llewellyn	Missoula, MT	2013-03-15	I have seen too many head injuries through my life. I currently have grandchildren playing in sports in middle school. I want them protected as much as possible from injuries. Some coaches and schools require protective head equipment but other coaches and schools don't. I believe this is a worth while prevention that is easy to implement to prevent permanent injury or death for all children and grandchildren.
Michelle Nigh-Mogstad	Missoula, MT	2013-03-15	My son will be playing sports. And Dylan was very close to my friend.
David Yanzick	Basin, MT	2013-03-15	Have children.
Kathy Gaskill	Missoula, MT	2013-03-15	We have learned that concussions have can have a life long impact and now that we have that knowledge we should take action to protect young people
Antoinette Alexander	Missoula, MT	2013-03-15	I believe this bill will help our young athletes play safer ball. I think the current thought of letting the youth continue to play after a hit in the head is very dangerous. I have spoken to my son and there were times he had his "clocked cleaned" but he wanted to get back into the game so, the coach let him. That was back in the 90's - now we know better. Please support this bill without any amendments. Thank you.
Kathy Schneider	Missoula, MT	2013-03-15	Safety
Melissa Elvsaaas	Froid, MT	2013-03-15	When my daughter was six she suffered a concussion. I believe everyone involved in youth sports should be educated about concussions.
